# **Japanese Clinical Trials Results**

These are the results obtained from clinical trials conducted in Japan for hydrogen water.

- Reduces muscle fatigue
- Improves sleep quality and mental health
- Prevented an elevation of blood lactate during heavy exercise.  
(Reducing lactic acid)
- Improves lipid and glucose metabolism in patients with type 2 diabetes
- Improves dyslipidemia and metabolic syndrome
- Improves vascular endothelial function(Arteriosclerosis)
- Improves Parkinson's disease (Improvement in total UPDRS scores)
- Reduces brain damage after cardiopulmonary arrest resuscitation

## **Source Documents for these results are listed below**
